HOMEPAGE

Template reference for this entire document: Bisum — “Home 1 (Furniture)” (spreethemesprevious.github.io/bisum/html/index.html). Of the three templates reviewed, it is the only one built and pre-populated as a furniture showroom site, and the only one that ships testimonial and client-logo blocks natively. A layout mockup is placed below each section showing exactly where that section's content sits within this template.

01 Hero Banner

Headline

Furniture that feels like home from day one.

Subtext

We make wardrobes, sofas, cots and dining sets for real homes, every piece built in-house by Vaanam Furniture in Coimbatore. Nothing overpriced, nothing overdesigned, just furniture that holds up and looks good doing it.

Primary CTA

Shop The Collection

Secondary CTA

Find A Settle Dealer Near You

Suggested layout: full-width lifestyle image or slider (living room / bedroom / dining) behind the headline, with both CTAs placed side by side as buttons.

Layout reference: Bisum “Home 1 (Furniture)” hero slideshow, where this section's content slots in.

02 Brand Value Proposition Strip

Heading

Why homes across South India choose Settle.

- In-house manufacturing, every piece made on Vaanam's own factory floor in Coimbatore, so quality stays in our hands from raw wood to finished product.
- A full year's manufacture warranty comes standard, on everything from wardrobes to dining tables.
- Our range is shaped around how South Indian homes live, from compact 2-door wardrobes to modular sofa sets.
- Priced to be lived in, so you're not choosing between good design and a fair price.

Suggested layout: a 4-column icon strip directly beneath the hero banner, one short line per value, so it reads briefly while scrolling past.

Layout reference: Bisum's trust/icon strip sitting directly under the hero, extended from 3 to 4 columns.

03 Featured Collections Showcase — Best Sellers

Heading

Our five most-loved pieces.

Subtext

Layout reference: Bisum's "Shop By Category" banner grid, extended from 3 to 5 cards for our best-sellers.

- Online B2B Access: browse the full catalog and track orders from a single dealer portal.
- Store Design Support: hands-on guidance for laying out and merchandising Settle inside your showroom.
- Marketing Activities: co-branded campaigns and launch support, so you're not selling us alone.

06 Experience Center Preview

Heading

See Settle before it's in your home.

Subtext

ABOUT PAGE

ABOUT SETTLE

Furniture that feels like it was always meant to be in your home.

Settle Furniture is a furniture brand under Vaanam Furniture, part of the Martin Group, Coimbatore that acts as a Subsidiary company of Vaanam. Where Vaanam brings the manufacturing scale behind three furniture brands, Settle brings that same strength into everyday homes, furniture for people furnishing real, lived-in spaces across South India.

Maps to: **About Settle - Hero** - Bisum's About page opens with this exact shape: breadcrumb, big heading, intro paragraph, a 3-item numbered strip, and a hero photo alongside. Our headline, intro paragraph and Vaanam/Chera/Kov framing drop straight in.

Layout reference: Bisum's About Us page hero: breadcrumb, heading, intro paragraph, 3-item strip, and photo. Our headline and intro drop straight in here.

A brand built to feel instantly at home.

Settle Furniture was created on a simple idea: furniture should feel like it belongs the moment it arrives, not after months of getting used to it. As one of three brands under Vaanam, alongside Chera and Kov, Settle was designed for homes that want trend-aware style without the wait, and honest quality without the premium price tag.

Maps to: **Brand Story And Vision** - the first of Bisum's three alternating image/text rows (image left, copy right on this one).

Manufactured with intent, in Coimbatore.

Every piece that carries the Settle Furniture name comes off Vaanam's own manufacturing floor in Coimbatore, from wardrobes and bedroom packages to sofas across the Eco, Prime and Ultra lines, recliners and dining sets. Raw material sourcing, construction and finishing all happen in-house, which keeps quality and consistency in Settle's hands at every stage, not outsourced to a third party.

Quality held to one standard, always.

Settle is checked against the same quality benchmark as every brand in the Vaanam group, verified at each stage of production rather than only at final inspection. Whether it's an entry-level Aura wardrobe or a Munich sofa-cum-bed, the piece that reaches a home is held to the same standard as the piece before it.
